Home > Resource Manager | All resources > Create a resource

Create a storage account

Select the subscription in which to create the new storage account. Choose a new or existing resource group to organize and manage your storage account together with other resources.

Subscription *
Azure for Students

Resource group *
(New) miaarchivos
[Create new](#)

Instance details

Storage account name *
martinmia

Region *
(US) East US
[Deploy to an Azure Extended Zone](#)

Primary service *
Azure Blob Storage or Azure Data Lake Storage

Performance *
☒ Standard: Recommended for most scenarios (general-purpose v2 account)
☐ Premium: Recommended for scenarios that require low latency.

Redundancy *
Geo-redundant storage (GRS)
☒ Make read access to data available in the event of regional unavailability.
☐ Geo priority replication guarantees Blob storage data is geo-replicated within 15 minutes.

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the Microsoft Azure logo, a search bar, and the user profile 'mamoralesmaza@corre... UNIVERSIDAD RAFAEL LANDIVA...'. The main content area displays the 'Overview' page for a deployment named 'martinurl_1790356882437'. The status is 'Deployment is in progress'. A table titled 'Deployment details' shows columns for Resource, Type, Status, and Operation details, but it is currently empty with the message 'No results.' Below the table, there is a 'Give feedback' section with a link to 'Tell us about your experience with deployment'. A notification banner in the top right corner states '*** Deployment in progress...' and 'Deployment to resource group 'miaarchivos' is in progress.' The bottom of the screen shows a Windows taskbar with the date and time '11:21 AM'.
